

Course Specification	
Name of Institution	National Institute of Development Administration
Faculty/Program	Graduate School of Communication Arts and Management Innovation

Section 1 General Information

- 1. Course Code and Title** CA 7101 User Interface Design
- 2. Total Credits** 45 Credit Hours
- 3. Program and Course Type**
Elective Course
- 4. Course Instructor**
4.1 Instructor Name Assoc. Prof. Chutisant Kerdvibulvech, Ph.D.
- 5. Semester / Year of Study**
Semester 3/ Year of study 2021
- 6. Pre-requisite Course (if any)**
NA
- 7. Co-requisites Course (if any)**
NA
- 8. Venue**
Nawamin Building
- 9. Latest Date of Course Specification Development or Modification**
1 June 2022

Section 2 Aims and Objectives

1. Course Aims

This course is aimed to enhance students' ability to apply theories and concepts to practice and research in communication and innovation.

2. Courses Objectives

1. To provide students with theories and concepts of communication and innovation.
2. Explain the role of the communication theories in the communication and innovation environments.
3. Increase students' ability to apply communication and innovation theories and concepts to communication and innovation research.

3. Reason for Course Development/Modification

The course content was changed by following Thailand 4.0 policy. Several theories and frameworks related to information communication and technology were added.

Section 3 Course Description and Implementation

1. Course Description

Students will learn user-interface design principles for multiple digital platforms including website and mobile applications. This course provides knowledge related to user interface components and processes, the industry standard in user-interface design, and user-experience design. Students are able to observe, evaluate and distinguish between the standard and non-standard user-interface designs as well as build creative, functional, and user-friendly interface designs.

2. Number of Hours per Semester

Number of Lecture Hours per week 3 hours

3. Number of hours provided for academic advice and guidance to individual student

6 hours/week will be communicated through Line application and face to face interaction

Section 4 Development of Student Learning Outcome

1. Students will understand the communication theories and concepts at all levels including intrapersonal communication, interpersonal communication, organizational communication, intercultural communication, mass communication, persuasive communication, and information and communication technology.

2. Students will be able to apply the communication and emerging technology theories and concepts to professional communication and technology practices.

3. Students will be able to use communication theories and models to guide the design of communication and emerging technology research.

1. Morals and Ethics

1.1 Morals and Ethics to be developed

- Media ethics and literacy

1.2 Teaching Methods

- Lecture
- Discussion

1.3 Evaluation Methods

- Observation

2. Knowledge

2.1 Knowledge to be acquired

- Communication and emerging technology theories

2.2 Teaching Methods

- Lecture
- Group Discussion

2.3 Evaluation Methods

- Group Assignment

3. Intellectual Development

3.1 Intellectual Development to be developed

- Application of theory to practice and research

3.2 Teaching Methods

- Group assignment

- 3.3 Evaluation Methods
- Rubrics

4. Interpersonal Skills and Responsibilities

- 4.1 Interpersonal Skills and Responsibilities to be developed
- NA
4.2 Teaching Methods
- NA
4.3 Evaluation Methods
- NA

5. Numerical Analysis, Communication, and Information Technology Skills

- 5.1 Numerical Analysis, Communication, and Information Technology Skills to be developed
- NA
5.2 Teaching Methods
- NA
5.3 Evaluation Methods
- NA

6. Mapping

Code	Courses	Credit	Ethics	Knowledge	Cognitive		Interpersonal	Analytical skills
			ELO 6	ELO 1	ELO 2	ELO 5	ELO 4	ELO 3
7101	User Interface Design	3		E	I	P		

I = introductory, E = Emphasis, A=Assessment, P=Partial relevant

Alignment between program ELOs, teaching method, assessment method and achievement indicator

Program ELOs	Teaching methods	Assessment methods	Achievement indicators
ELO 1: Apply information communication technology concepts and theories to professional communication and technological practices in digital environments	-Lecture -Discussion -Written assignment Individual and group assignment	-Assessment rubrics	-Ability to apply theory and concept to the assigned individual and group assignment

Program ELOs	Teaching methods	Assessment methods	Achievement indicators
ELO 2: Formulate research in the areas of big data analytic and information communication technology contributing to the new body of knowledge	NA	NA	NA
ELO 3: Read, analyze, and manage big data sets for optimizing marketing communication strategies.	NA	NA	NA
ELO 4: Manage data visualization tools for developing engage content, gaining consumer insight and boosting marketing ROI.	NA	NA	NA
ELO 5: Develop social digital network for communication and management	NA	NA	NA
ELO 6: Apply critical and analytical thinking skills for developing innovative product and services and resolves clients problems.	NA	NA	NA
ELO 7: Develops intellectual curiosity to keep up with digital technology and marketing communication trends. Develops intellectual curiosity to keep up with digital technology and marketing communication trends.	NA	NA	NA
ELO 8: Demonstrate positive attitude, business ethic and endurance acquired for work in professional communication environment.	NA	NA	NA
ELO 9: Apply communication, coordination and negotiation skills for developing effective working relationship with clients	NA	NA	NA

Section 5 Teaching Plan and Evaluation Plan

1. Teaching Plan

W	Regular Program Thursday 9.00-16.00	Special Program Sunday 9.00-16.00	Lecture Topic	H	Teaching activities	Instructor
1	16 Jun 2022	12 Jun 2022	- Introduction to Digital Media Production, History - Creativity and Research for Digital Media Production	6	Discussion / Lecture Group presentation / E-learning (Microsoft Teams)	Chutisant Kerdvibulvech
2	23 Jun 2022	19 Jun 2022	Recent Applications for Digital Media Production	6	Lecture Group Discussion Research based learning / E-learning (Microsoft Teams)	Chutisant Kerdvibulvech / Guest Speaker (Regular Program)
3	30 Jun 2022	26 Jun 2022	- Recent Applications for Digital Media Production (cont.) - Current Trends for Digital Media Production	6	Lecture Group Discussion Research based learning / E-learning (Microsoft Teams)	Chutisant Kerdvibulvech / Guest Speaker (Regular Program)
4	7 Jul 2022	3 Jul 2022	- Introduction to New Digital Media - Recent New Digital Media	6	Lecture Group Discussion	Chutisant Kerdvibulvech
5	14 Jul 2022	10 Jul 2022	- Recent New Digital Media (cont.)	6	Lecture Group Discussion	Chutisant Kerdvibulvech
6	21 Jul 2022	17 Jul 2022	- User Experience / Website Creation for Digital Media	6	Lecture Group Discussion	Chutisant Kerdvibulvech

W	Regular Program Thursday 9.00-16.00	Special Program Sunday 9.00-16.00	Lecture Topic	H	Teaching activities	Instructor
7	28 Jul 2022	24 Jul 2022	User Experience / Search Engine Optimization for Digital Media Production	6	Lecture Group Discussion Research based learning / E-learning (Microsoft Teams)	Chutisant Kerdvibulvech
8	4 Aug 2022	31 Jul 2022	User Experience / Search Engine Optimization for Digital Media Production	3	Group presentation	Chutisant Kerdvibulvech

2. Evaluation plan

- Clarify in class

Activities	Learning Outcome	Evaluation Methods	Week of Evaluation	Mark Allocation
1	1,2, 6	Class participation and attendance	1-15	10 %
2	1	Midterm / Final project	1-15	90 %

3. Attendance and Participation

Students are required to attend a minimum of 80% of all sessions and expected to participate in group discussions and activities. Students are also expected to arrive at the class no later than 15 minutes after class has started.

Section 6 Teaching and Learning Resource

1. Reading materials

Required Text	- New Digital Media..Media for the Future, Author: Chutisant Kerdvibulvech, 2nd Edition (2017), NIDA Publishing - Augmented Reality: A Modern Vision-Based Approach, Author: Chutisant Kerdvibulvech, 2nd Edition (2016) - Mixed Reality: Merging Real and Virtual Worlds, Yuichi Ohta, Hideyuki Tamura, 418 pages, Springer, ISBN-13: 978-3642875144 (April 15, 2014)
Additional Reading	- C. Kerdvibulvech, "An Innovative Real-time Mobile Augmented Reality Application in Arts," The 4th International Conference on Augmented Reality, Virtual Reality and Computer Graphics (SALENTO AVR'17), Lecture Notes in Computer Science (LNCS), Part II, vol. 10325 (DBLP, SCImago Q2 and Scopus), Springer International Publishing AG, Ugento (Lecce), Italy, pp. 251-260, June 12-15, 2017. Oral - C. Kerdvibulvech, "Vision and Virtual-based Human Computer Interaction Applications for a New Digital Media Visualization", 23rd International Conference on Computer Graphics, Visualization and Computer Vision 2015 (WSCG), Eurographics Association & ACM SIGGRAPH (Scopus, SCImago and Thomson Reuters ISI), Plzen, Czech Republic, June 8 - 12, 2015. - C. Kerdvibulvech, "An Innovative Use of Multidisciplinary Applications Between Information Technology and Socially Digital Media for Connecting People", The Multidisciplinary International Social Networks Conference 2015 (Springer), in Communication of Computer and Information Science (CCIS), (Scopus and SCImago Quartile 4th), Ehime, Japan, September 1 – 3, 2015.
Research Journal	C. Kerdvibulvech, "Hand Tracking by Extending Distance Transform and Hand Model in Real-time," Pattern Recognition and Image Analysis, Vol. 25, Issue 3, pp. 437-441, Springer Publisher (INSPEC, SCImago Q3, Elsevier's Scopus, EiCompendex, ACM, and Google Scholar), July 2015.
Electronic website	http://www.ieee.org

2 .Research publications

Research publication	Week
-	-

3 .Publication, body of knowledge and academic services that integrated in the teaching activities

Publication, body of knowledge and academic service	Week
-	-

Section 7 Course Evaluation and Improvement**1. Evaluation Strategies for Course Effectiveness by Students**

Student comments and suggestions are applied in evaluation strategies for course effectiveness.

2. Teaching Evaluation Strategies

-

3. Teaching Improvement

-

4. Verification of Students Achievements in the Course

This group assignment is aimed to help students get started with the communication and technology theories. Student will learn how to apply communication and technology theories to develop possible applications.

Individual & Group Assignment Paper Rubric

The 6 Aspects for Assessment for 3 projects (30%*3 = 90%)

1. Relevance to the course	0 1 2 3 4 5
2. Effectiveness of the used concepts and theories	0 1 2 3 4 5
3. Additional literature sources and research	0 1 2 3 4 5
4. Reliability literature sources	0 1 2 3 4 5
5. Originality and creativity	0 1 2 3 4 5
6. Communication and clarity presentation	0 1 2 3 4 5

The other 10% is for class participation and attendance.

5. Course Review and Improvement Plan
