Sex robots

Sex robots have been examined in films like [Ex Machina \(2015\) - IMDb](#) where actress Alicia Vikander played a life-like robot named Ava.

That's the scenario envisaged by David Levy, author of "Love and Sex and Robots," who predicts it won't be long before we're all doing it — with machines.

Love and Sex with Robots

- David Levy also wrote Love and Sex with Robots, published in the United States in 2007 by HarperCollins, and forthcoming from Duckworth in the UK. It is the commercial edition of his PhD thesis, which he defended successfully on 11 October 2007, at Maastricht University, Netherlands.

Sex robots are coming in the future? (1)

- ▣ Pepper, a well-known Japanese humanoid robot, has been hacked for 'sexual purposes.'

In 2015, the makers of Japanese robot Pepper issued a warning, saying using it for "sexual purposes" breaks the rental agreement after people hacked its software to give it "virtual breasts."

Sex robots are coming in the future? (2)

- ▣ How about ethical and legal issues?
- ▣ Artificial Intelligence (AI)
 - Driverless car – legal issue?
- ▣ Virtual Reality (VR) and Augmented Reality (AR)
- ▣ Balance computer science and innovation with ethics

Balance computer science and innovation with ethics (2)

- ❑ Imagine you're in a self-driving car, heading towards a collision with a group of pedestrians. The only other option is to drive off a cliff. What should the car do?
- ❑ Specifically, self-driving cars from Google, Tesla, and others will need to address a much-debated thought experiment called The Trolley Problem
