/ Conventional Communication Arts**

=

Novelty (Application / Idea)

Integrated Final Project

Literature Review: At least 3 technical approved papers since 2014-2017 from IEEE, ACM, LNCS and Scimago

Output: 1 Paper in IEEE Template Format (at least 1 page)

Individual Work (but can discuss with your friends)

Deadline for Presentation: 6 May 2017 in the afternoon (13.00)

Integrated Final Project

- Technical Paper
 - Abstract
 - Problem Statement / Literature Review
 - At least 3 technical approved papers since 2014-2017 from IEEE, ACM, LNCS and Scimago
 - Proposed Application / Idea
 - References

IEEE Template can be downloaded here:

https://www.ieee.org/conferences_events/conferences/publishing/templates.html

Integrated Final Project

- ให้เสนอหัวข้องานวิจัยที่บูรณาการรวม AR เข้ากับเรื่องต่าง ๆ (โดยต้องไม่เคยมีมาก่อน) เช่น
 - AI, Deep Learning
 - SEO / SEM
 - 3D Display / VR
 - Communication Arts
 - หรืออาจจะเป็นหัวข้อวิจัยที่ทำอยู่ในระดับปริญญาเอกจริง ๆ เลยก็ได้
- แล้วให้ทำ Literature Review (อย่างน้อย 3 Papers และตั้งแต่ปี 2014 ขึ้นมา ที่อยู่ในฐานที่กำหนด) เพื่อตรวจสอบว่าไม่มีอยู่จริง แล้วเสนอว่าเราจะทำอะไรแตกต่างกับแต่ละ Related-works บ้าง โดยสามารถทำเป็น Application จริง หรือ เป็นแค่ Idea แนวคิดก็ได้
- โดยให้เขียนออกมาโดยใช้ Format IEEE Template สองคอลัมน์ อย่างน้อย 1 หน้า เป็นภาษาไทยหรืออังกฤษก็ได้ (ถ้าเป็นภาษาไทยให้ใช้ฟอนท์ให้ขนาดเหมาะสมใกล้เคียงภาษาอังกฤษ) พร้อมนำเสนอสั้น ๆ 5-10 นาทีในคาบสุดท้ายตอนบ่าย

Integrated Final Project

- 8 April 2107
 - Select the topic of each person (15-30 mins provided) and explain
 - Discuss with related groups and revise according to the comments of the professor
 - Find at least 3 related papers
- 6 May 2107 (morning)
 - Bring the related papers for approval
 - Questions & Answers
 - Write the paper (Abstract, Problem Statement / Literature Review, Proposed Application / Idea, References)
- 6 May 2107 (afternoon)
 - Presentations

10 buzziest startup sectors: Techsauce 2016

- 10. agritech

- Agritech refers to techniques using technology for agricultural practices, fishing and farming. As agriculture is so important to Thailand, there's interesting growth potential for Thai agritech businesses. We recently interviewed Verifik8, who are bringing big data into the fishing supply chain. Often overlapping with foodtech.

- 9. fashiontech

- Changing the world of fashion through new technology. As well as e-commerce startups like Pomelo, many startups are fusing new technologies into the clothes that we wear.

Reference from Matt Mayer's, a British technology guru and the founder of ReignDesign, a mobile design and development studio

10 buzziest startup sectors: Techsauce 2016

- 8. adtech

- Short for advertising technology, the term refers commonly to all technologies, softwares and services used for delivering, controlling and targeting online ads. While e-commerce is booming in South East Asia, adtech is currently lagging behind.

- 7. insurtech

- Insurtech is a combination of “insurance” and “technology”, inspired by Fintech. The belief driving insurtech companies is that the insurance industry is ripe for innovation and disruption driven by modern technology.

10 buzziest startup sectors: Techsauce 2016

- 6. greentech

- Greentech include clean energy, environmental, and sustainable or green, products and services. It's often a hot sector where accelerators like to invest.

- 5. healthtech

- Health Technology is defined by the World Health Organization as the “application of organized knowledge and skills in the form of devices, medicines, vaccines, procedures and systems developed to solve a health problem and improve quality of lives.” While Thailand is a regional leader for healthcare, healthcare startups have struggled here so far.

10 buzziest startup sectors: Techsauce 2016

- 4. cleantech

- Cleantech, also referred to as clean technology, include clean energy, environmental, and sustainable or green, products and services. Sounds familiar? The greentech and cleantech people really need to agree on a hashtag.

- 3. edtech

- EdTech, education+technology “is a study and ethical practice for facilitating learning and improving performance by creating, using and managing appropriate technological processes and resources.”. We’ve written about EdTech in Thailand and existing startups include SkillLane and Taamkru.

10 buzziest startup sectors: Techsauce 2016

- 2. biotech

- Short for Biotechnology, the exploitation of biological processes for industrial and other purposes, especially the genetic manipulation of microorganisms for the production of antibiotics, hormones, etc. One sector which pre-dates the fintech boom!

- 1. fintech

- Financial technology, also known as FinTech, is a line of business based on using software to provide financial services, possibly disrupting the traditional banking industry. For Thai examples think Peer Power , StockRadars, or see our interview with Piggipo.

Time for categorizing

- 10. agritech: agriculture + technology
- 9. fashiontech: fashion + technology
- 8. adtech: advertising + technology
- 7. insurtech: insurance + technology
- 6. greentech: green + technology
- 5. healthtech: health + technology
- 4. cleantech: clean + technology
- 3. edtech: education + technology
- 2. biotech: biotechnology
- 1. fintech: financial technology
